Checklist for Detecting AI-Generated Content

Human Detection:

- ☐ Does the content lack a personal touch or feel unnatural?
- ☐ Do you feel no connection with the writer or the content?
- ☐ Does the content sound repetitive or use the same phrases frequently?

Accuracy Check:

- ☐ Is the information provided accurate and up-to-date?
- ☐ Have you cross-verified the facts and data presented in the content?

Personality and Uniqueness:

- ☐ Does the content have a unique perspective or personal anecdotes?
- ☐ Is there evidence of critical thinking and in-depth analysis?

Repetition and Patterns:

- ☐ Are there repeated words or phrases throughout the content?
- ☐ Does the writing seem overly conservative or neutral without strong opinions?
